Market Closed Early-Dealings Were Narrow, but Close Was Strong.

NEW YORK June 26.—The decision to pay tribute to the memory of exPresident Cleveland by ending the Stock Exchange session at 1 o'clock to-day served to further curtail the aiready shrunken proportions of the dealings in stocks. The session was insignificant in every way. Fluctuations in prices were narrow and shifting in an uncertain manner. The redundant conditions of the money market gives promise of being increased by the week's continued inflow of cash to New York, and horrowing, terms are so easy as to offer no urgency to holders of securities to realize on them. At the same time demand for securities is well-nigh stagmant.

The market, in consequence, is almost deadlocked. Cessation of the pressure against the Rock Island issues relieved the market from a depressing factor, and contributed to the firmer tone. The only semblance of activity was just at the close, when prices enjoyed an uplift that placed a half-dozen of the leaders a point or more over last night's closing. Bonds were irregular. Total sales, par value, \$1,184,000.

United States bonds were unchanged

DUN'S REVIEW

NEW YORK. June 28.—R. G. Dun & Company's Weekly Review of Trade to-morrow will say:

Midsummer quiet is augmented this year by the general contraction that has occurred in all departments of trade and industry, but splendid progress of the crops strengthens confidence in the future, and preparation for a large volume of fail business is gradually increasing the percentage of active machinery. Erratic fluctuations in prices of raw material related improvement in the cotton to goods industry, but the recent sharp advance in hides and leather, on account of small receipts of cattle, failed to check progress at shoe factories, and a fair tonnage of new business is received by the steel mills.

Semi-annual clearance sales of dry goods were well attended, country merchants replenishing depleted stocks at satisfactory prices, and reports from all sections of the country testify to a good distribution of lightweight wearing apparel. Idle freight cars have been reduced to less than 35,000 and many raliroad shops are resuming repair work. The combination of conservative buying and violent fluctuations in raw cotton precludes the development of any definite tendency, and prices of cotton goods in the primary market are also affected by terms at clearance sales. Export houses business light the past week, bringing some orders from China, but curtailment at Lancashire mills testified to the lack of demand from the far East,

the first woman who gave the same amount.

Dr. Mabel Spencer, of Junction City. Kan., promptly arose and blushingly said she would contribute \$100. Dr. Spencer put forward one hand, and Dr. Biggar, bending low, gallantly touched his lips to it. The convention cheered. The example having been set, Dr. Anna W. Spencer, of Batavia, Ill., bravely announced that she would part with \$100, and Dr. Biggar hastened over to see her personally. More cheers and another kiss on the hand.

A woman with gray hair and dignified expression gave \$100, and Dr. Biggar kissed her firmly on the lips. Only \$250 was needed to make up the \$5,000, and Dr. B. F. Betts, of the Hahnemann Medical College, Philadelphia, gave the money. Dr. Foster

Because of this incident and discord in his church, which he called the St. Thomas Congregation, Worden decided to depart. When he was ready to go this, morning about 100 boys and girls, with tin pans, marched the dominie to a trolley car. He did not then escape, for some of the children managed to keep abreast of the car through the crowded East Side section.

Worden came here several years ago and started a United Presbyterian Church. He said he had the gift of divine hesling.
